Department of the Army's Military Helicopter Storage, Maintenance, and Pilot Training Programs in Afghanistan: Audit of Costs Incurred by Science and Engineering Services LLC

AUGUST

2020

SIGAR 20-49-FA/UH-60

SIGAR

Special Inspector General for Afghanistan Reconstruction

WHAT THE AUDIT REVIEWED

The Army Contracting Command–Redstone awarded Science and Engineering Services LLC (SES) two cost-plus-fixed-fee delivery orders to provide various support services for the UH-60 helicopter platform in Afghanistan. The first order, initially valued at $4,521,155, required SES to store and provide security for UH-60 helicopters for the U.S. Army's Black Hawk Exchange and Sales Transaction Program. The first order's period of performance was from November 4, 2014, through November 6, 2018. After 34 modifications, the end date changed to August 15, 2019, and funding increased to $22,587,341. The second order, initially valued at $13,369,114, required SES to maintain UH-60A military helicopters and train Afghan pilots; the period of performance for that order was June 30, 2017, through May 31, 2019. After seven modifications, funding for the second order increased to $46,301,575, while the period of performance remained the same.

SIGAR's financial audit, performed by Crowe LLP (Crowe), reviewed $45,477,884 in costs incurred from November 4, 2014, through August 15, 2019, for both orders. The objectives of the audit were to (1) identify and report on significant deficiencies or material weaknesses in SES's internal controls related to the delivery orders; (2) identify and report on instances of material noncompliance with the terms of the delivery orders and applicable laws and regulations, including any potential fraud or abuse; (3) determine and report on whether SES has taken corrective action on prior findings and recommendations; and (4) express an opinion on the fair presentation of SES's Special Purpose Financial Statement (SPFS). See Crowe's report for the precise audit objectives.

In contracting with an independent audit firm and drawing from the results of the audit, auditing standards require SIGAR to review the audit work performed. Accordingly, SIGAR oversaw the audit and reviewed its results. Our review disclosed no instances where Crowe did not comply, in all material respects, with U.S. generally accepted government auditing standards.

August 2020

Department of the Army's Military Helicopter Storage, Maintenance, and Pilot Training Programs in Afghanistan: Audit of Costs Incurred by Science and Engineering Services LLC

SIGAR 20-49-FA

WHAT SIGAR FOUND

Crowe found three material weaknesses and two significant deficiencies in SES's internal controls, and three instances of noncompliance with the terms of the delivery order. For example, the auditors noted that SES exceeded the authorized spending limits for training by $242,902, without first getting permission from the contracting officer, as required by the delivery order.

Because of the material weaknesses and significant deficiencies in internal controls and instances of noncompliance, Crowe identified a total of $266,981 in questioned costs. The questioned costs consisted of $24,079 in unsupported costs—costs not supported with adequate documentation or that did not have required prior approval—and $242,902 in ineligible costs—costs prohibited by the contract, applicable laws, or regulations.

Category	Ineligible	Unsupported	Total Questioned Costs
Costs Incurred that Exceeded Spending Limits for Training	$242,902	$0	$242,902
Inadequate Documentation to Support Cost Reasonableness	$0	$23,689	$23,689
Incorrect Physical Inventories of Government Property	$0	$390	$390
Total Costs	**$242,902**	**$24,079**	**$266,981**

Crowe identified two prior audit findings that could have a direct and material impact on the SPFS, and concluded that SES took adequate corrective action for both findings.

Crowe issued an unmodified opinion on SES's SPFS, noting that it presents fairly, in all material respects, revenues received and costs incurred for the period audited.

WHAT SIGAR RECOMMENDS

Based on the results of the audit, SIGAR recommends that the responsible contracting officer at Army Contracting Command:

1. **Determine the allowability of and recover, as appropriate, $266,981 in questioned costs identified in the report.**
2. **Advise SES to address the report's five internal control findings.**
3. **Advise SES to address the report's three noncompliance findings.**

August 17, 2020

The Honorable Dr. Mark T. Esper
Secretary of Defense

Mr. Ryan D. McCarthy
Secretary of the Army

General Austin Scott Miller
Commander, U.S. Forces–Afghanistan and
Commander, Resolute Support

We contracted with Crowe LLC (Crowe) to audit the costs incurred by Science and Engineering Services LLC (SES) under two delivery orders supporting the U.S. Department of the Army's military helicopter storage, maintenance, and pilot training programs in Afghanistan.[1] Under the orders, SES stored and maintained Afghan military helicopters, and trained Afghan pilots. Crowe's audit covered $45,477,884 charged to the delivery orders from November 4, 2014, through August 15, 2019. Our contract with Crowe required that the audit be performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

Based on the results of the audit, SIGAR recommends that the responsible contracting officer at Army Contracting Command:

1. **Determine the allowability of and recover, as appropriate, $266,981 in questioned costs identified in the report.**
2. **Advise SES to address the report's five internal control findings.**
3. **Advise SES to address the report's three noncompliance findings.**

The results of Crowe's audit are discussed in detail in the attached report. We reviewed Crowe's report and related documentation. Our review, as differentiated from an audit in accordance with U.S. generally accepted government auditing standards, was not intended to enable us to express, and we do not express, an opinion on SES's Special Purpose Financial Statement. We also express no opinion on the effectiveness of SES's internal control or compliance with the contract, laws, and regulations. Crowe is responsible for the attached auditor's report and the conclusions expressed in it. However, our review disclosed no instances in which Crowe did not comply, in all material respects, with generally accepted government auditing standards issued by the Comptroller General of the United States.

We are requesting documentation related to corrective actions taken and target dates for completion for the recommendations. Please provide this information to sigar.pentagon.audits.mbx.recommendation-followup@mail.mil within 60 days from the issue date of this report.

John F. Sopko
Special Inspector General
for Afghanistan Reconstruction

(F-179)

TRANSMITTAL LETTER

July 6, 2020

To the SES Holding Company, Inc. and Management of Science and Engineering Services, LLC
6992 Columbia Gateway Drive
Columbia, Maryland 21046

To the Office of the Special Inspector General for Afghanistan Reconstruction
2530 Crystal Drive
Arlington, Virginia 22202

We appreciate the opportunity to provide to you our report regarding the procedures that we have completed during the course of our audit of Science and Engineering Services LLC's ("SES") Special Purpose Financial Statement for the period November 4, 2014, through August 15, 2019, pertaining to delivery order numbers 0036 and 0090 issued under contract number W58RGZ-13-D-0048 by the Army Contracting Command-Redstone ("ACC").

Within the pages that follow, we have provided a summary of the work performed. Following the summary, we have incorporated our report on the Special Purpose Financial Statement, report on internal control, and report on compliance. We do not express an opinion on the summary or any information preceding our reports.

When preparing our report, we considered comments, feedback, and interpretations of SES, the Office of the Special Inspector General for Afghanistan Reconstruction, and ACC, provided both in writing and orally throughout the audit planning and fieldwork phases. Management's final written responses have been incorporated into this report as an appendix.

Thank you for providing us the opportunity to work with you and to conduct the financial audit of SES's delivery orders.

Sincerely,

Bert Nuehring, CPA, Partner
Crowe LLP

Summary

Background

The Office of the Special Inspector General for Afghanistan Reconstruction ("SIGAR") engaged Crowe LLP ("Crowe" or "we" or "our") to conduct a financial audit of delivery orders 0036 and 0090 issued under indefinite delivery-indefinite quantity ("IDIQ") contract number W58RGZ-13-D-0048 for the period November 4, 2014 through August 15, 2019. Army Contracting Command – Redstone ("ACC") awarded the two delivery orders ("DO") to Science and Engineering Services, LLC ("SES").

On November 4, 2014, ACC awarded DO 0036 to SES and structured it as a cost-plus-fixed-fee award. The original DO was valued at $4,521,155 and it had an expected completion date of November 6, 2018. There were 34 modifications to the DO, which extended the period of performance to August 15, 2019, and increased the total value of the award to $22,587,341. DO 0036 supported Utility Helicopter ("UH") 60 helicopter storage, maintenance, and support of the U.S. Army's Black Hawk Exchange and Sales Transaction ("BEST") Program. The DO required SES to receive and store aircraft, equipment, and inventory. SES was also responsible for performing proper aircraft security and mooring.

DO 0090, which was issued to SES on June 30, 2017, supported the Utility Helicopter Program Office's UH-60A Afghanistan Maintenance and Training Project. The DO's purpose was to fund the UH-60A Afghan Training and Maintenance requirement, inclusive of program management, aircraft maintenance, training, travel, and various materials and publications. Under DO 0090, SES was required to perform maintenance on sixteen UH-60 helicopters, as well as provide training for Afghan pilots in Kandahar. The original award had a period of performance from June 30, 2017, through May 31, 2019, and was valued at $13,369,114. Through seven modifications, the total value of the award increased to $46,301,575 with no change in the period of performance.

Work Performed

Crowe was engaged by the SIGAR to conduct a financial audit of SES's DO's 0036 and 0090 under indefinite delivery indefinite quantity ("IDIQ") contract number W58RGZ-13-D-0048 for the period November 4, 2014 through August 15, 2019.

Objectives Defined by SIGAR

The following audit objectives were defined within the *Performance Work Statement for Financial Audits of Costs Incurred by Organizations Contracted by the U.S. Government for Reconstruction Activities in Afghanistan*:

Audit Objective 1 – Special Purpose Financial Statement
Express an opinion on whether the Special Purpose Financial Statement (SPFS) for the delivery orders presents fairly, in all material respects, revenues earned, costs incurred, items directly procured by the U.S. Government, and balance for the period audited in conformity with the terms of the delivery orders and generally accepted accounting principles or other comprehensive basis of accounting.

Audit Objective 2 – Internal Controls
Evaluate and obtain a sufficient understanding of SES's internal control related to the delivery orders; assess control risk; and identify and report on significant deficiencies including material internal control weaknesses.

Audit Objective 3 – Compliance
Perform tests to determine whether SES complied, in all material respects, with the delivery orders and applicable laws and regulations; and identify and report on instances of material noncompliance with

(Continued)

terms of the delivery orders and applicable laws and regulations, including potential fraud or abuse that may have occurred.

Audit Objective 4 – Corrective Action on Prior Findings and Recommendations
Determine and report on whether SES has taken adequate corrective action to address findings and recommendations from previous engagements that could have a material effect on the special purpose financial statement or other financial data significant to the audit objectives.

Scope

The audit's scope included activity within the period November 4, 2014 through August 15, 2019, inclusive of closeout procedures. Within the period under audit, SES reported $45,477,884 in total revenue earned under the delivery orders for Afghanistan-related activities. The amount includes $3,394,309 in fixed fee earned during the period and $42,083,575 in reimbursable costs incurred.

The audit was limited to those matters and procedures pertinent to the delivery orders that have a direct and material effect on the SPFS. The audit also included an evaluation of the presentation, content, and underlying records of the SPFS. Further, the audit included reviewing the financial records that support the SPFS to determine if there were material misstatements and if the SPFS was presented in the format required by SIGAR. In addition, the following areas were determined to be direct and material and, as a result, were included within the audit program for detailed evaluation:

- Allowable Activities;
- Allowable Costs;
- Cash Management;
- Equipment and Real Property Management; and
- Procurement

Methodology

To meet the aforementioned objectives, Crowe completed a series of tests and procedures to audit the SPFS, tested compliance and considered the auditee's internal controls over compliance and financial reporting and determined if adequate corrective action was taken in response to prior audit, assessment, and review comments, as applicable.

For purposes of meeting Audit Objective 1 pertaining to the SPFS, transactions were selected from the financial records underlying the SPFS and were tested to determine if the transactions were recorded accurately and consistent with the terms and conditions of the award; were incurred within the period covered by the SPFS and in alignment with specified cutoff dates; were appropriately allocated to the delivery orders if the costs benefited multiple objectives; and were adequately supported.

With regard to Audit Objective 2 regarding internal control, Crowe requested, and the auditee provided copies of policies and procedures to provide Crowe with an understanding of the system of internal control established by SES during the period of performance. To the extent documented policies and procedures were unavailable, Crowe conducted interviews with management to obtain an understanding of the processes that were in place during the period of performance. The system of internal control is intended to provide reasonable assurance of achieving reliable financial reporting and compliance with applicable laws and regulations. Crowe corroborated internal controls identified by the auditee and conducted testing of select key controls to understand if they were implemented as designed.

Audit Objective 3 required that tests be performed to obtain an understanding of the auditee's compliance with requirements applicable to the delivery orders. Crowe identified – through review and evaluation of the IDIQ contract and delivery orders issued by ACC to SES – the criteria against which to test the SPFS and supporting financial records and documentation. Using various sampling techniques, including, but

(Continued)

not limited to, audit sampling guidance for compliance audits provided by the American Institute of Certified Public Accountants, Crowe selected transactions, payment vouchers submitted to ACC, procurements, and government property for testing. Supporting documentation was provided by the auditee and subsequently evaluated to assess SES's compliance. Testing of indirect costs was limited to determining whether indirect costs were calculated and charged to the U.S. Government in accordance with the provisional billing rate letters issued by the Defense Contract Audit Agency.

In addition, Crowe conducted closeout audit procedures. Such procedures included, but were not limited to, assessing whether cash receipts exceeded revenue earned, final physical inventories were performed, and government property was properly disposed of in accordance with the Government's directives. Crowe's scope did not include determining final indirect cost rates for SES and, therefore, Crowe's procedures did not include either testing the calculation of SES's final indirect cost rates or determination of the final indirect cost rates for the audit period.

Regarding Audit Objective 4, Crowe inquired of SES, SIGAR, and ACC personnel participating in the audit entrance conference to understand whether or not there were prior audits, reviews, or assessments that were pertinent to the audit scope. Crowe also conducted an independent search of publicly available information to identify audit and review reports. As a result of the aforementioned efforts, we identified two prior reports – one of which contained two findings and recommendations for SES. Crowe adjusted our audit response in lieu of these findings and recommendations by factoring the associated risks into our substantive procedures, including tests over controls and compliance.

Summary of Results

Upon completion of Crowe's procedures, Crowe identified five findings because they met one or more of the following criteria: (1) significant deficiencies in internal control; (2) material weaknesses in internal control; (3) noncompliance with rules, laws, regulations, or the terms and conditions of the delivery orders; and/or (4) questioned costs resulting from identified instances of noncompliance.

Crowe issued an unmodified opinion on the SPFS, noting that it presents fairly, in all material respects, the revenues earned, costs incurred, and balance for the period audited.

Crowe also reported on both SES's internal controls over financial reporting and compliance with the applicable laws, rules, regulations, and the terms and conditions of the delivery orders. Three material weakness in internal control and two significant deficiencies in internal control were reported. Three of the findings were classified as instances of noncompliance. In situations in which control and compliance findings pertained to the same matter, the findings were consolidated within a single finding.

In response to the identified instances of noncompliance, Crowe reported $266,981 in questioned costs, of which $242,902 were ineligible and $24,079 were unsupported costs. SIGAR requires questioned costs be classified as either "ineligible" or "unsupported." SIGAR defines ineligible costs as those that are explicitly questioned because they are unreasonable, prohibited by the audited contract or applicable laws and regulations, or that are unrelated to the award. Unsupported costs are those that are not supported with adequate documentation or did not have the required prior approvals or authorizations. The following summary is intended to present an overview of the audit results and is not intended to be a representation of the audit's results in their entirety. The summary includes questioned costs reported by Crowe – all of which were classified as unsupported.

Crowe also requested copies of prior audits, reviews, and evaluations pertinent to SES's financial performance under DO's 0036 and 0090. Based on Crowe's communications with SES, SIGAR, and ACC, there were two such previous reports issued. One of the reports included findings and recommendations. Crowe conducted procedures to ascertain whether adequate corrective action had been taken on prior findings and recommendations. We concluded that SES has taken adequate corrective action. See **Section II** of our report for additional information.

(Continued)

Schedule of Findings and Questioned Costs

Finding No.	Finding Name	Classification	Questioned Costs (USD)
2019-01	Costs Incurred that Exceed Authorized Funding Limits	Significant Deficiency and Noncompliance	$242,902
2019-02	Inadequate Documentation to Support Cost Reasonableness	Significant Deficiency and Noncompliance	$23,689
2019-03	Lack of Segregation of Duties in Sole Source Procurement Approvals	Material Weakness	$0
2019-04	Incorrect Physical Inventories of Government Property	Material Weakness and Noncompliance	$390
2019-05	Misstatements on the DO 0090 Disposition Request	Material Weakness	$0
Total Questioned Costs:			**$266,981**

Summary of Management Comments

SES's management agreed with Findings 2019-01, 2019-03, 2019-04, and 2019-05. However, management disagreed with Finding 2019-02 as management does not believe the FAR requires documentation supporting cost or price reasonableness for costs resulting from micro-purchases to be retained.

References to Appendices

The auditor's reports are supplemented by four appendices: **Appendix A**, which contains management's responses to the audit findings; **Appendix B**, which contains the auditor's rebuttal; **Appendix C**, which contains the final inventory for DO 0036; and **Appendix D**, which contains the final inventory for DO 0090. Inventories contained in **Appendix C** and **Appendix D** were prepared by management.

INDEPENDENT AUDITOR'S REPORT ON THE SPECIAL PURPOSE FINANCIAL STATEMENT

To the SES Holding Company, Inc. and Management of Science and Engineering Services, LLC
6992 Columbia Gateway Drive
Columbia, Maryland 21046

To the Office of the Special Inspector General for Afghanistan Reconstruction
2530 Crystal Drive
Arlington, Virginia 22202

Report on the Special Purpose Financial Statement

We have audited the Special Purpose Financial Statement (the "Statement") of Science and Engineering Services, LLC ("SES"), and related notes to the Statement, with respect to delivery order numbers 0036 and 0090 issued under contract number W58RGZ-13-D-0048 for the period November 4, 2014 through August 15, 2019.

Management's Responsibility for the Special Purpose Financial Statement

Management is responsible for the preparation and fair presentation of the Statement in accordance with the requirements specified by the Office of the Special Inspector General for Afghanistan Reconstruction ("SIGAR") and the terms and conditions of delivery order numbers 0036 and 0090 issued under contract number W58RGZ-13-D-0048. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of a Statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(Continued)

Opinion

In our opinion, the Statement referred to above pertaining to delivery orders 0036 and 0090 issued under contract number W58RGZ-13-D-0048 presents fairly, in all material respects, the revenues earned, costs incurred, and balance for the indicated period in accordance with the basis of presentation and accounting described in Notes 1, 2, 4, 5, and 6.

Basis of Presentation and Accounting

We draw attention to Notes 1, 2, 4, 5, and 6 to the Statement, which describe the basis of presentation and accounting. The Statement is prepared in a format required by SIGAR and presents those amounts as permitted under the terms of delivery orders 0036 and 0090 issued under Contract No. W58RGZ-13-D-0048, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to comply with the financial reporting provisions of the delivery orders referred to above. Our opinion is not modified with respect to this matter.

Restriction on Use

This report is intended for the information of Science and Engineering Services, LLC, the Office of the Special Inspector General for Afghanistan Reconstruction, and Army Contracting Command. Financial information in this report may be privileged. The restrictions of 18 U.S.C. 1905 should be considered before any information is released to the public.

Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our reports dated June 17, 2020, on our consideration of SES's internal controls over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering SES's internal control over financial reporting and compliance.

The accompanying notes to the Special Purpose Financial Statement are an integral part of this Statement.

NOTE 1 – BASIS OF PRESENTATION

The accompanying Special Purpose Financial Statement (the "Statement") includes costs incurred under Delivery Order Number 0036 for the H-60 Storage, Maintenance and Support Black Hawk Exchange and Sales Transaction program, and Delivery Order Number 0090 for the UH-60A Afghan Training and Maintenance for the period funded by for the period from November 4, 2014 through August 15, 2019. Because the Statement presents only a selected portion of the operations of Science and Engineering Services LLC (“SES”), it is not intended to and does not present the financial position, changes in net assets, or cash flows of SES. The information in this Statement is presented in accordance with the requirements specified by the Office of the Special Inspector General for Afghanistan Reconstruction ("SIGAR") and is specific to the aforementioned Federal Contract W58RGZ-13-D-0048. Therefore, some amounts presented in this Statement may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2 – BASIS OF ACCOUNTING

Revenues and expenditures reported on the Statement are reported on the accrual basis of accounting. Expenditures are recognized following the cost principles contained in Federal Acquisition Regulation (FAR) Part 31*,* wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 – FOREIGN CURRENCY CONVERSION METHOD

For purposes of preparing the Statement, conversions from local currency to United States dollars were not required.

NOTE 4 – REVENUES

Revenues on the Statement represent the amount of funds to which Science and Engineering Services, LLC is entitled to receive from the United States Government for allowable, eligible costs incurred under the contract and fees earned during the period of performance.

NOTE 5 – COSTS INCURRED BY BUDGET CATEGORY

The budget categories presented and associated amounts reflect the final funding amounts presented within the final, approved delivery order modifications. Regarding DO 0036, the contract budget adopted as a component of Modification 35 dated December 20, 2019, is presented on the Statement. Regarding DO 0090, the budgeted amounts reflect final funding as reported in Modification 07 dated December 19, 2018.

NOTE 6 – BALANCE

The balance presented on the Statement represents the difference between revenues earned and costs incurred plus agreed-upon fixed fees. The balance shown reflects costs incurred but for which funding has not yet been made available pending issuance of a modification by ACC at such time a final determination of allowability and amount of revenue earned may be made.

NOTE 7 – CURRENCY

All amounts presented are shown in United States Dollars.

NOTE 8 – PROGRAM STATUS

The H-60 Storage, Maintenance and Support Black Hawk Exchange and Sales Transaction (BEST) program is complete. The period of performance for the contract concluded on November 7, 2019 as noted in modification number 31 dated November 8, 2018. The UH-60A Afghan Training and Maintenance program is complete. The period of performance for the contract concluded on May 31, 2019 as noted in modification number 07 dated December 19, 2018. Accordingly, adjustments to amounts currently reported on the Special Purpose Financial Statement may be made as a result of completion of the Period of Performance.

NOTE 9 – INDIRECT COSTS

SES calculates and charges indirect costs to the Government based on the agreed-upon rates reflected within provisional billing rate letters issued by the Defense Contract Audit Agency (DCAA). Whereas provisional rates are estimated and will not be finalized until DCAA conducts its final audits and issues final rate agreements, the indirect costs reported in the Statement reflect SES's estimated indirect costs pending finalization of the rates.

NOTE 10 – SUBSEQUENT EVENTS

Management has performed an analysis of the activities and transactions subsequent to the November 4, 2014 through August 15, 2019 period covered by the Statement. Management has performed their analysis through June 17, 2020.

A. Finding 2019-01 questioned $242,902 under delivery order 0090 because SES exceeded the authorized funding limits for contract line item number 0003. SES represented the costs were not submitted for reimbursement.

B. Finding 2019-02 questioned $23,689 under delivery order 0036 due to lack of supporting documentation to demonstrate the reasonableness of costs incurred for nine purchases.

C. Finding 2019-04 identified $390 under delivery order 0090 in questioned costs resulting from government property that was retained by SES subsequent to the end of the period of performance for delivery order

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL

To the SES Holding Company, Inc. and Management of Science and Engineering Services, LLC
6992 Columbia Gateway Drive
Columbia, Maryland 21046

To the Office of the Special Inspector General for Afghanistan Reconstruction
2530 Crystal Drive
Arlington, Virginia 22202

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Special Purpose Financial Statement (the "Statement") of Science and Engineering Services, LLC ("SES"), and related notes to the Statement, with respect to delivery order numbers 0036 and 0090 issued under Army Contracting Command – Redstone (ACC) contract number W58RGZ-13-D-0048 for the period November 4, 2014 through August 15, 2019. We have issued our report thereon dated June 17, 2020.

Internal Control over Financial Reporting

SES's management is responsible for establishing and maintaining effective internal control. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control policies and procedures. The objectives of internal control are to provide management with reasonable, but not absolute, assurance that the assets are safeguarded against loss from unauthorized use or disposition; transactions are executed in accordance with management's authorization and in accordance with the terms of the contract; and transactions are recorded properly to permit the preparation of the Statement in conformity with the basis of presentation described in Note 1 to the Statement. Because of inherent limitations in internal control, errors or fraud may nevertheless occur and not be detected. Also, projection of any evaluation of the structure to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the effectiveness of the design and operation of policies and procedures may deteriorate.

In planning and performing our audit of the Statement for the period November 4, 2014, through August 15, 2019, we considered SES's internal controls to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Statement, but not for the purpose of expressing an opinion on the effectiveness of SES's internal control. Accordingly, we do not express an opinion on the effectiveness of SES's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

(Continued)

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs as Findings 2019-03, 2019-04, and 2019-05 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying Schedule of Findings and Questioned Costs as Findings 2019-01 and 2019-02 to be significant deficiencies.

We noted certain matters that we reported to SES's management in a separate letter dated June 17, 2020.

SES's Response to the Findings

SES's response to the findings identified in our audit are described in Appendix A to our report. SES's response to the findings was not subject to the auditing procedures applied in the audit of the Statement and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control. Accordingly, this communication is not suitable for any other purpose.

Restriction on Use

This report is intended for the information of SES, Army Contracting Command, and the Office of the Special Inspector General for Afghanistan Reconstruction. Financial information in this report may be privileged. The restrictions of 18 U.S.C. 1905 should be considered before any information is released to the public.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE

To the SES Holding Company, Inc. and Management of Science and Engineering Services, LLC
6992 Columbia Gateway Drive
Columbia, Maryland 21046

To the Office of the Special Inspector General for Afghanistan Reconstruction
2530 Crystal Drive
Arlington, Virginia 22202

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Special Purpose Financial Statement (the "Statement") of Science and Engineering Services. LLC ("SES"), and related notes to the Statement, with respect to delivery order numbers 0036 and 0090 issued under Army Contracting Command – Redstone (ACC) contract number W58RGZ-13-D-0048 for the period November 4, 2014 through August 15, 2019. We have issued our report thereon dated June 17, 2020.

Management's Responsibility for Compliance

Compliance with Federal rules, laws, regulations, and the terms and conditions applicable to the delivery orders is the responsibility of the management of SES.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Statement is free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings and Questioned Costs as Findings 2019-01, 2019-02, and 2019-04.

SES's Response to the Findings

SES's response to the findings identified in our audit are described in Appendix A to our report. SES's response to the findings was not subject to the auditing procedures applied in the audit of the Statement and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's compliance. Accordingly, this communication is not suitable for any other purpose.

Crowe LLP

June 17, 2020
Washington, D.C.

FINDING 2019-01: Costs Incurred that Exceed Authorized Funding Limits

Significant Deficiency in internal control and Noncompliance

Condition: During our testing of the Special Purpose Financial Statement, we noted that SES incurred and recorded costs that exceeded authorized funding limits. Specifically, SES incurred and recorded costs of $6,972,898 for Contract Line Item Number (CLIN) 0003 under Delivery Order 0090, but the total authorized funding for CLIN 0003 was $6,729,996. The following table summarizes the authorized funding amounts relative to actual costs incurred:

CLIN	Funding Level	Actual Costs Incurred	Under (Over) Spend
0003AA	$5,275,046	$5,138,898	$136,148
0003AB	$1,371,330	$1,762,295	($390,965)
0003AC	$83,620	$71,705	$11,915
Totals	**$6,729,996**	**$6,972,898**	**($242,902)**

The excess costs over the authorized funding level of $242,902 is in question.

SES notified the Government in 2018 at the time expected costs were projected to exceed budget and requested a funding re-alignment but did not obtain written approval for the budget realignment. SES represented the company has not requested reimbursement for the costs from the Government pending receipt of a funding modification.

Criteria: The delivery order 0090 base award established a "not to exceed" funding level of $5,275,046 for CLIN 0003. The delivery order was subsequently modified to increase CLIN 0003's funding level by $1,454,950, for a total of $6,729,996 for the delivery order. The contractor may not exceed the funding level for CLIN 0003 specified in the delivery order unless the contracting officer issues an additional modification to the delivery order approving an increase in funding for CLIN 003. SES's policy requires budget monitoring to ensure that charges to the award are made in accordance with the funded CLIN in compliance with the terms and conditions of the contract.

Questioned Costs: $242,902

Effect: SES incurred and charged to the delivery order costs that are ineligible for reimbursement due to insufficient funding.

Cause: SES concluded that additional overtime was needed to deliver its scope of work. SES considered the costs to be appropriately allocable due to the company's having notified the Government of the anticipated overage in advance of incurring the costs. Existing procedures were insufficient to ensure that program managers obtain written approval from the Government to continue work after funding levels are exhausted.

Recommendation: We recommend that SES:

1. Either obtain the Government's approval to add funding to CLIN 0003 in the amount of $242,902 or otherwise adjust the Special Purpose Financial Statement and contract cost records by reducing costs incurred for CLIN 0003 by $242,902; and
2. Supplement its existing procedures to include an expectation that program managers either obtain written approval from the Government to continue work at the time funding levels are exhausted or otherwise proceed with work without an expectation of cost recovery.

FINDING 2019-02: Inadequate Documentation to Support Cost Reasonableness

Significant Deficiency in internal control and Noncompliance

Condition: SES issued 220 purchase orders for Afghanistan-related work, including Helicopter parts and materials needed to work on Helicopters on Delivery Order 0036, and 229 purchase orders for Afghanistan-related work on Delivery Order 0090. Crowe selected 45 procurements for testing, covering both delivery orders. Of the 45 selections, 36 were less than the micro-purchase threshold of $5,000.[1] Effective September 12, 2018, SES changed its micro-purchase threshold from $3,500 to $5,000.This threshold allows the contractor to select whatever company and product it wants to satisfy procurements requirements, so long as the contractor can demonstrate the price is reasonable.

During our procedures, we noted SES did not consistently retain documentation within its procurement files to support the reasonableness of the costs associated with the purchases below the micro-purchase threshold. Therefore, Crowe conducted a search of publicly available information to ascertain whether the costs incurred for the 36 selections was reasonable. In 27 of the 36 instances, Crowe concluded the costs charged by SES were reasonable. In the remaining nine instances totaling $23,689, Crowe was unable to conclude that the costs charged by SES were reasonable.

In consideration of the above, $23,689 is in question. The amounts in question by purchase order (PO) are reflected in the following table.

Selection #	PO	PO Date	Products/Services Purchased	Amount
4	L17P002506	05/31/2017	Upper Door Seals	1,060
11	L17P002753	06/12/2017	Bearings	768
15	L17P002855	06/19/2017	Main Rotor Blade Box	1,780
16	L17P002853	06/19/2017	Main Rotor Blade Box	1,780
18	L17P002935	06/23/2017	Crates	3,496
26	L17P004039	08/21/2017	Blade Box	4,475
34	L18P002248	05/07/2018	UH-60 Spindle Lug Kit	1,460
37	L18P002837	06/12/2018	UH-60 Tail Rotor Drive Shaft Servicing Kit	3,875
38	L18P002832	06/12/2018	Drive Shaft Stand	4,995
	TOTAL:			**$23,689**

Criteria: Pursuant to 48 CFR 31.201-2, Determining allowability, "(a) A cost is allowable only when the cost complies with all of the following requirements:

(1) Reasonableness.
(2) Allocability.
(3) Standards promulgated by the CAS Board, if applicable, otherwise, generally accepted accounting principles and practices appropriate to the circumstances.
(4) Terms of the contract.
(5) Any limitations set forth in this subpart."

48 CFR 31.201-3, *Determining reasonableness,* states:

"(a) A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. Reasonableness of specific

[1] The National Defense Authorization Act for Fiscal Year 2017 set the micro-purchase threshold for Department of Defense-related contract activities as $5,000.

costs must be examined with particular care in connection with firms or their separate divisions that may not be subject to effective competitive restraints. No presumption of reasonableness shall be attached to the incurrence of costs by a contractor. If an initial review of the facts results in a challenge of a specific cost by the contracting officer or the contracting officer's representative, the burden of proof shall be upon the contractor to establish that such cost is reasonable.

(b) What is reasonable depends upon a variety of considerations and circumstances, including—

(1) Whether it is the type of cost generally recognized as ordinary and necessary for the conduct of the contractor's business or the contract performance;

(2) Generally accepted sound business practices, arm's length bargaining, and Federal and State laws and regulations;

(3) The contractor's responsibilities to the Government, other customers, the owners of the business, employees, and the public at large; and

(4) Any significant deviations from the contractor's established practices."

(d) A contractor is responsible for accounting for costs appropriately and for maintaining records, including supporting documentation, adequate to demonstrate that costs claimed have been incurred, are allocable to the contract, and comply with applicable cost principles in this subpart and agency supplements. The contracting officer may disallow all or part of a claimed cost that is inadequately supported.

48 CFR 52.244-5, *Competition in Subcontracting as referenced in Section I-79 of the contract,* states, "The Contractor shall select subcontractors (including suppliers) on a competitive basis to the maximum practical extent consistent with the objectives and requirements of the contract."

48 CFR 4.703(a) states, " Except as stated in 4.703(b), contractors shall make available records, which includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form, and other supporting evidence to satisfy contract negotiation, administration, and audit requirements of the contracting agencies and the Comptroller General for-

(1) 3 years after final payment; or

(2) For certain records the period specified in 4.705 through 4.705-3, whichever of these periods expires first."

Questioned Costs: $23,689

Effect: The Government may have paid more than necessary for the procured items.

Cause: SES established procurement policy; however, it did not include instruction to the company's procurement personnel to document and retain support for the information used to ascertain reasonableness of costs for purchases below the micro-purchase threshold. When documenting the procurement file, SES considered the applicable procurement requirements but did not consider the requirement for documentation to support cost reasonableness denoted in the cost principles.

Recommendation: We recommend that SES:

1. Modify its existing procurement procedures to require that the company's procurement personnel document the means used to conclude costs and/or prices are reasonable for all procurements and retain this information;
2. Either provide documentation supporting the reasonableness of the costs incurred under each purchase order or reimburse the Government $23,689; and
3. Provide training to procurement personnel regarding methods to document cost or price reasonableness for purchases below the micro-purchase threshold.

FINDING 2019-03: Lack of Segregation of Duties in Sole Source Procurement Approvals

Material Weakness in internal control

Condition: During our testing of 45 procurements, we identified two purchases that were completed using noncompetitive procedures. In each instance, SES's program manager prepared a Single-Sole Source Justification form as the purchases exceeded the competitive bidding threshold. The program manager also signed each form as the individual approving the sole source purchases, indicating he was signing on behalf of the Vice President, who was out of country at the time and had delegated approval authority to the program manager. The program manager's approval of Single-Sole Source Justification forms he prepared indicates a lack of segregation of duties within the control process.

The two procurements in question are summarized below:

Vendor	Purchase Order Number	Procurement Amount
Latshaw Training Group, Inc.	L17P003635, Change Order 2	$231,840
Ultrax	L18P004356	$199,444
Total:		**$431,284**

Criteria: Pursuant to 48 CFR 52.244-5, *Competition in Subcontracting as referenced in Section I-79 of the contract,* states, "The Contractor shall select subcontractors (including suppliers) on a competitive basis to the maximum practical extent consistent with the objectives and requirements of the contract."

Management is responsible for complying with applicable laws, regulations, contracts, and grants and such responsibility extends to identifying the requirements and designing internal control policies and procedures to provide reasonable assurance that compliance is achieved.

The Committee of Sponsoring Organizations of the Treadway Commission's (COSO) Internal Control – Integrated Framework states, "Internal control is a process, effected by an entity's board of directors, management, and other personnel, designed to provide reasonable assurance regarding the achievement of objectives relating to operations, reporting, and compliance."

GAO's Standards for Internal Control in the Federal Government, *Principle 10 – Design Control Activities, Segregation of Duties Section 10.13,* states, "Segregation of duties helps prevent fraud, waste, and abuse in the internal control system. Management considers the need to separate control activities related to authority, custody, and accounting of operations to achieve adequate segregation of duties. In particular, segregation of duties can address the risk of management override. Management override circumvents existing control activities and increases fraud risk. Management addresses this risk through segregation of duties, but cannot absolutely prevent it because of the risk of collusion, where two or more employees act together to commit fraud."

Questioned Costs: None

Effect: Without adequate segregation of duties, the likelihood that errors, omissions, or improper actions will be detected and corrected in a timely manner is increased.

Cause: Due to the applicable Vice President's not being in-country at the time, the Program Manager was delegated authority to sign on behalf of the Vice President. However, SES's delegation procedures did not address instances in which the Program Manager was the preparer of documents subject to approval.

Recommendation: We recommend that SES:

1. Modify its procurement policy and procedures to require that delegations of authority be documented in writing and specify that individuals preparing Single-Sole Source Justification Forms may not also serve as the approving official(s).; and
2. Provide training to its personnel regarding adequate documentation to support noncompetitive procurements and segregation of duties in procurement.

FINDING 2019-04: Incorrect Physical Inventories of Government Property

Material Weakness in Internal Control and Noncompliance

Condition: SES conducted a final physical inventory related to delivery order 0090, consistent with the applicable government property requirements. During our testing of the inventory, we noted the following:

- The inventory reported 185,342 items remaining on-hand at the end of the period of performance; the 185,342 items were associated with a vouchered amount of $488,049. Whereas the delivery order 0090's period of performance had concluded, we inquired as to the final disposition of the items remaining on-hand. Management conducted an additional review of the items in response to our inquiries and provided a revised inventory and reconciliation to the financial records. Per review of the revised reconciliation, we noted the final count of items on-hand was incorrect, and the correct count was 283 items remaining on-hand in inventory. The 283 items are associated with $390, which is in question.
- When responding to our audit inquiries and reconciliation requests, management noted the inventory erroneously coded certain items as material receipts rather than as having been issued to delivery order 0090. Of 5,042 inventory transactions, 4,227 items required corrections during the audit.

Criteria: 48 CFR 52.245-1(b), *Property management,* states: "(1) The Contractor shall have a system of internal controls to manage (control, use, preserve, protect, repair, and maintain) Government property in its possession. The system shall be adequate to satisfy the requirements of this clause. In doing so, the Contractor shall initiate and maintain the processes, systems, procedures, records, and methodologies necessary for effective and efficient control of Government property."

48 CFR 52.245-1(f)(1)(iii)(A), *Records of Government property,* states, "The Contractor shall create and maintain records of all Government property accountable to the contract, including Government-furnished and Contractor-acquired property.

(A) Property records shall enable a complete, auditable record of all transactions…"

Section 3.1, *Property Management,* of SES's Property Manual and Management Plan states that the members of the property management team are responsible for conducting physical inventories, reconciling records, and filing applicable reports.

FAR 52.245-1(f)(1)(x), *Property closeout, states,* "The Contractor shall promptly perform and report to the Property Administrator contract property closeout, to include reporting, investigating and securing closure of all loss of Government property cases; physically inventorying all property upon termination or completion of this contract; and disposing of items at the time they are determined to be excess to contractual needs."

Section 3.1 of SES's Property Manual and Management Plan, states, "Property management is the responsibility of all personnel assigned in support of our awarded contracts. All functional areas will work together to ensure that property is accounted for and protected during the life cycle of the program. Oversight of property management personnel and their accountability to the standards will be monitored by Property Manager or their designee. Continuous improvement objectives will be evaluated and staffed among senior leaders within the functional areas to ensure processes are sufficient to meet our current business structure."

Questioned Costs: $390

Effect: The Government may rely on inaccurate and incomplete property records when evaluating and managing government property available from the program.

Cause: SES did not follow its internal control procedures to manage its property, including failing to provide adequate supervisory review of physical inventory and reconciliation, or otherwise provide adequate training to personnel to ensure property management procedures are appropriately executed.

Recommendation: We recommend that SES:

1. Submit a revised final physical inventory to Army Contracting Command and include a certification statement regarding the accuracy and completeness of the revised inventory;
2. Either obtain the Contracting Officer's approval to transfer the remaining 283 items on-hand to a follow-on delivery order or reimburse the Government $390 should the remaining items be kept in SES's custody and control;
3. Provide training to personnel conducting assessments of the government property controls and inventory processes to enhance the effectiveness of the assessments; and
4. Provide training to program managers and property management team members responsible for inventory control regarding the inventory, disposition, and contract closeout processes to mitigate the risk of future inventory errors.

FINDING 2019-05: Misstatements on the DO 0090 Disposition Request

Material Weakness in internal control

Condition: As a component of our closeout audit procedures, we conducted testing of compliance with government property disposition instructions. As a component of our review, we requested a copy of the Form DD 1149, *Requisition and Invoice/Shipping Document*. The DD 1149 was submitted to the Government in conjunction with the SES's request for disposition instructions. We noted the DD 1149 reported $0 in total costs for the items included in the disposition request. SES submitted a workbook containing a master inventory for the delivery order along with the request. The master inventory contained 10,311 items; neither prices nor costs were disclosed per item such that the dollar value of the error is unclear.

Further, we noted the program manager digitally signed the DD 1149 as the issuer of the form. However, the "Checked By" and "Packed By" entries were not completed.

Last, we noted the DD 1149 form as submitted to the Government did not contain all components of a properly filled out DD Form 1149 as per SES policy.

Criteria: Section 11.3.2, *External Transfers,* of SES's Property Manual and Management Plan presents an example of a properly filled out DD Form 1149.

Section 13.1, *Property Closeout,* of SES's Property Manual and Management Plan states, "Care shall be taken to ensure that the [disposition schedules] are accurate and have been properly prepared to reflect the correct description, part number, quantity, unit cost, total cost, accurate condition code, and prime contract number."

Questioned Costs: None

Effect: Due to the omissions on the DD 1149 form and in the master inventory, the Government's disposition instructions may have been provided without all necessary inputs.

Cause: SES did not design and implement adequate review processes and procedures over the DD 1149 preparation and submission.

Recommendation: We recommend that SES:

1. Modify its government property procedures to require an individual other than the issuer of future DD 1149 forms sign off as having checked the form and supporting documentation for accuracy and completeness;
2. Revise and re-submit the DD 1149 form to include all necessary data elements represented on the DD 1149 form;
3. Provide training to the program manager regarding the appropriate completion and submission of the DD 1149 form; and
4. Modify its property management procedures to identify an individual with the appropriate level of responsibility in the company to review and approve DD 1149 forms prior to submission to the Government.

Crowe reviewed two prior audit, review, or assessment reports. One of the reports contained findings and recommendations that may be direct and material to the Special Purpose Financial Statement or other financial information significant to the audit objectives. The report containing the findings follows:

SIGAR 20-09 Financial Audit, November 2019, *Department of the Army's UH-60A Enhanced Phase Maintenance Inspection Program in Afghanistan: Audit of Costs Incurred by Science and Engineering Services LLC*, for the period June 28, 2017, through November 30, 2018.

We have summarized the results of our procedures below and on the following pages.

FINDING NO. 2018-01: INCORRECT COST CLASSIFICATIONS

Issue: SES did not comply with the contract terms requiring accurate billing of costs by Contract Line Item Number (CLIN) budget. Two of ten transactions sampled in the Other Direct Cost (ODC) category were improperly classified as ODC. The transactions should have been classified in specific line items established by the contract.

Status: We obtained evidence of training provided to SES personnel regarding the chart of accounts, which addresses accounts to which costs should be charged and related restrictions. We also noted that this matter was not repeated during our audit. We, therefore, concluded that adequate corrective action has been taken by SES with respect to this matter.

FINDING NO. 2018-02: COSTS OUTSIDE OF SCOPE

Issue: Shipping costs related to the delivery of goods for Delivery Order 0036 were incorrectly charged to Delivery Order 0089.

Status: We obtained evidence of training provided to SES personnel regarding the chart of accounts, which addresses accounts to which costs should be charged and related restrictions, as well as identification and charging of direct and indirect costs to the appropriate contract instruments. In addition, management provided evidence of two payments submitted to the U.S. Government in August 2019 that total $304.

We also noted that this matter was not repeated during our audit. We, therefore, concluded that adequate corrective action has been taken by SES with respect to this matter.

Appendix A: Views of Responsible Officials

SES's management provided responses to the four audit findings via email on June 16, 2020. The responses are included below.

FINDING 2019-01: Costs **Incurred that Exceed Authorized** Funding Limits {TC "SECTION I SCHEDULE OF FINDINGS AND QUESTION COSTS" \l-8}

Management Response:

Management agrees with the finding but notes the customer will fund SES at contract close-out.

FINDING 2019-02: Inadequate Documentation to Support Cost Reasonableness

Management Response:

Documenting price reasonableness for Micro-Purchases is not a FAR requirement as it would defeat the purpose of the Micro-Purchase threshold. The FAR requires only minimal documentation for Micro Purchases in order to reduce time spent procuring items of nominal value. However, SES understands very well that the FAR does require the Buyer to make sure reasonable prices are paid for all purchases including Micro's. It is our position that the prices for our Micro-purchases are fair and reasonable because our Buyers and approval authorities review the price as a prudent person would do. The Micro-Purchase Threshold provides the Buyer an opportunity to use sound judgement based on experience and knowledge of the supply chain. Although competition isn't required for Micro-Purchases, the SES Buyers still compete them whenever possible. The Buyers are also driven by our procedures to use highly rated suppliers. The two key factors are as follows:

1. SES does make a determination of price reasonableness for Micro Purchases (FAR requirement)

2. SES does not document the Buyers determination of price reasonableness for Micro Purchases (Not a FAR requirement).

FINDING 2019-03: Lack of Segregation of Duties in Sole Source Procurement Approvals

Management Response:

Management agrees with the finding.

FINDING 2019-04: Incorrect Physical Inventories of Government Property

Management Response:

Management agrees with the finding.

FINDING 2019-05: Misstatements on the DO 0090 Disposition Request

Management Response:

Management agrees with the finding.

Appendix B: Auditor's Rebuttal

Crowe LLP ("Crowe" or "we" or "us") has reviewed Science and Engineering Services, LLC's ("SES'" or "the Auditee") management response to the audit findings. In consideration of the management views, Crowe has included the following rebuttal to certain matters presented by the Auditee. A rebuttal has been included in those instances where management disagreed with the facts presented within the condition or otherwise did not concur with Crowe's recommendation. SES disagreed with Finding 2019-02, but concurred with Findings 2019-01, 2019-03, 2019-04, and 2019-05. Therefore, we have only included a rebuttal for Finding 2019-02.

FINDING 2019-02: Inadequate Documentation to Support Cost Reasonableness

Management disagreed with Crowe's conclusion that the costs in question were inadequately supported for cost reasonableness because they assert that FAR does not require them to maintain documentation supporting cost reasonableness for procurements below the micro purchase threshold. However, as stated in the criteria, FAR 31.201-2(d) states "A contractor is responsible for accounting for costs appropriately and for maintaining records, including supporting documentation, adequate to demonstrate that costs claimed have been incurred, are allocable to the contract, and comply with applicable cost principles in this subpart and agency supplements." In addition, FAR 31.201-3 states, "If an initial review of the facts results in a challenge of a specific cost by the contracting officer or the contracting officer's representative, the burden of proof shall be upon the contractor to establish that such cost is reasonable." In consideration of these requirements, Crowe did not consider management's assertion to be accurate and the finding has not been modified.

SES also submitted current quotes using 2020 pricing for those sample selections referenced in finding 2019-02. Whereas it is unclear whether the items are of the same technical specifications required and the documentation was not completed contemporaneously, we cannot conclude that the costs are reasonable and in alignment with the required specifications of the Government. Therefore, we have not modified the questioned costs.

Appendix C: DO 0036 Final Inventory

Contained herein is an excerpt from the delivery order 0036 physical inventory developed by SES and provided to Crowe for audit. Crowe takes no responsibility for the inventory's contents or its accuracy.

SIGAR's Mission

The mission of the Special Inspector General for Afghanistan Reconstruction (SIGAR) is to enhance oversight of programs for the reconstruction of Afghanistan by conducting independent and objective audits, inspections, and investigations on the use of taxpayer dollars and related funds. SIGAR works to provide accurate and balanced information, evaluations, analysis, and recommendations to help the U.S. Congress, U.S. agencies, and other decision-makers to make informed oversight, policy, and funding decisions to:

- improve effectiveness of the overall reconstruction strategy and its component programs;
- improve management and accountability over funds administered by U.S. and Afghan agencies and their contractors;
- improve contracting and contract management processes;
- prevent fraud, waste, and abuse; and
- advance U.S. interests in reconstructing Afghanistan.

Obtaining Copies of SIGAR Reports and Testimonies

To obtain copies of SIGAR documents at no cost, go to SIGAR's Web site (www.sigar.mil). SIGAR posts all publically released reports, testimonies, and correspondence on its Web site.

To Report Fraud, Waste, and Abuse in Afghanistan Reconstruction Programs

To help prevent fraud, waste, and abuse by reporting allegations of fraud, waste, abuse, mismanagement, and reprisal, contact SIGAR's hotline:

- Web: www.sigar.mil/fraud
- Email: sigar.pentagon.inv.mbx.hotline@mail.mil
- Phone Afghanistan: +93 (0) 700-10-7300
- Phone DSN Afghanistan: 318-237-3912 ext. 7303
- Phone International: +1-866-329-8893
- Phone DSN International: 312-664-0378
- U.S. fax: +1-703-601-4065
